## **14 Warning: Token price may experience extreme volatility**

14.1 Cryptographic Tokens or cryptocurrencies that possess value in public markets, such as BTC, have demonstrated extreme fluctuations in price over short periods of time on a regular basis. You must be prepared to accept similar fluctuations in Token value. Such fluctuations are due to market forces and

represent changes in the balance of supply and demand. GreenMed cannot and does not guarantee any market liquidity for Tokens. Additionally, due to different regulatory requirements in different jurisdictions, and the inability of citizens of certain countries to open accounts at exchanges located anywhere in the world, the liquidity of Tokens may be markedly different in various jurisdictions.

14.2 By participating in the Crowdfunding, making Participations to GreenMed, or receiving and holding Tokens, you acknowledge and agree that you fully understand that Tokens may experience volatility in pricing and liquidity, and that, to the extent permitted by applicable law, you agree that no other party (including, without limitation any GreenMed Party) may be held liable for any Loss arising out of, or in any way connected your participation in the Crowdfunding, Participations to GreenMed, or receiving and holding Tokens.

## **15 Warning: Receiving Tokens has a number of risks**

### **15.1 Tokens carry risks.**

Prior to receiving Tokens, you should carefully consider such risk and, to the extent necessary, consult with an appropriately qualified advisor. If any of the following risks are unacceptable to you, you should not accept Tokens. By participating in the Crowdfunding, making participations to GreenMed, or receiving and holding Tokens, you acknowledge and agree that you understand the risks described below and that, to the extent permitted by applicable law, you agree that no other party (including, without limitation any GreenMed Party) may be held liable for any Loss arising out of, or in any way connected with your participation in the Crowdfunding, Participations to GreenMed, or receiving and holding Tokens or such risk.

### **15.2 Dissolution of GreenMed due to a diminishment in the value of other cryptocurrencies, cryptographic tokens, and blockchain-based software systems.**

Participants are using cryptographic tokens or cryptocurrencies to participate in the Crowdfunding, make participations, or receive and hold Tokens. While some of these may have been relatively stable, it is possible that their values may drop significantly in the future, which may deprive GreenMed of sufficient resources to continue to operate.

### **15.3 Regulatory action in one or more jurisdictions.**

Cryptocurrencies, cryptographic tokens, and blockchain-based software systems have been the subject of regulatory scrutiny by various regulatory bodies in numerous jurisdictions. GreenMed and Tokens could be impacted by one or more regulatory inquiries or regulatory actions, which could impede or limit the ability of GreenMed to develop its platform.

### **15.4 Insufficient interest in GreenMed and GRMD.**

It is possible that GreenMed or GRMD will not be used by a large number of individuals and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of GreenMed. GreenMed will contract with developers to help build GreenMed platform. However, GreenMed cannot predict the success of these development efforts or the efforts of other third parties.

### **15.5 GreenMed, as developed, will not meet Token holder expectations.**

Participants acknowledge that GreenMed is currently under development and may undergo significant changes before release. Participants acknowledge that any expectations regarding the form and functionality of GreenMed held by the Participant may not be met upon its release for any number of

reasons, including a change in the design and implementation plans and execution of the implementation of GreenMed.

#### 15.6 Theft.

Hackers or other groups or organisations may attempt to steal Tokens.

#### 15.7 Weaknesses or exploitable breakthroughs in the field of cryptography.

Cryptography is a rapidly developing field with advances in code cracking and technical advances, which could present a risk to GreenMed Crowdfunding campaign and potentially result in the theft or loss of Tokens. To the extent possible, GreenMed intends to update the protocol underlying GreenMed to account for any advances in cryptography and to incorporate additional security measures, but it cannot predict the future of cryptography or the success of any future security updates.

### **16 Cancellation and refund policy**

16.1 By participating in the Crowdfund, you acknowledge that GreenMed is not required to provide a refund for any reason, and that you will not receive money or other compensation in lieu of a refund, and you consent to no right of withdrawal from the Crowdfund.

16.2 All Participations to GreenMed are final and non-refundable unless the total amount of Participations does not reach adequate amount by the end of the Crowdfunding, in which case a full refund of all Donations will be performed by GreenMed, where applicable.

16.3 All commissions for refund transactions will be covered by Participants.

### **17 Taxation**

## **24 Severability**

If any provision of these terms and conditions is found illegal or unenforceable, in whole or in part, such provision shall, as to such jurisdiction, be ineffective solely to the extent of such determination of invalidity or unenforceability without affecting the validity or enforceability thereof in any other manner or jurisdiction and without affecting the remaining provisions, which shall continue in full force and effect.

## **25 No waiver**

The failure of GreenMed to require or enforce strict performance of any provision of these terms and conditions or GreenMed's failure to exercise any right under these terms and conditions shall not be construed as a waiver or relinquishment of GreenMed's right to assert or rely upon any such provision or right (or any other provision and/or right contained this document in its entirety, as the case may be) in that or any other instance. The express waiver by GreenMed of any provision, condition, or requirement of these terms and conditions shall not constitute a waiver of any future obligation to comply with such provision, condition or requirement.
